

Poutník — user guide: VW Multivan

Informative translation — the Czech version prevails.

VW Multivan T7 · 2025 model · 7 seats

2.0 TDI 110 kW · 7-speed DSG

Front-wheel drive (FWD) — not 4x4

Diesel + AdBlue

Controls at a glance

A · SELECTOR, DISPLAY AND DOORS

- 1 Selector R-N-D/S — up for R, down for D (down again for S), P = button on the lever. Only shift while stationary with the brake pressed.
- 2 Touchscreen display — navigation, music, settings.
- 3 Touch strip — temperature left/right, volume in the middle, ☼ turns the radio off.
- 4 Hazard warning lights.
- 5 CLIMA/ASSIST — shortcuts to the climate and assistance menus.
- 6 Sliding doors: top = left door, bottom = right door, OFF = locks the rear buttons (child lock).
- 7 START/STOP engine button — with the brake pressed.

B · BRAKE, CHARGING AND KEY

- 1 Parking brake (P) — electric.
- 2 AUTO HOLD — holds the vehicle stationary without the brake, pull away on the accelerator. We recommend leaving it on.
- 3 Wireless phone charging — tray above the brake switch.
- 4 12 V socket — we'll show you the USB-C port at handover.
- 5 Key — do not leave it in the vehicle or in the tray.

C · LIGHTS

- 1 AUTO — automatic headlights, recommended to leave on.
- 2 MODE — switches dipped-beam/parking lights.
- 3 Rear fog light.
- 4 MAX — quick windscreen demist.
- 5 Rear window heating.

D · STEERING WHEEL AND INSTRUMENTS

- 1 Cruise control/ACC (left) — keeps distance from the vehicle ahead.
- 2 ▲ ▼ — volume.
- 3 OK and <|> — instrument-cluster menu; VIEW — changes the display; top-left button — voice control.
- 4 Digital instrument cluster — speed, consumption, range, temperatures.
- 5 Indicator and main-beam stalk.

CAUTION Front-wheel drive — not for off-road · height 1.91 m (2.31 m with roof tent) · max. 80 km/h with the tent

At a glance

60 l diesel tank

AdBlue next to diesel

Pressure 2.5 bar

7 seats

Front-wheel drive, not 4x4

+ 40 cm with tent

Puncture repair kit

Tow hitch

Roof box ready

3-zone air conditioning

1. Before you drive

- Category B driving licence, vehicle and insurance documents are in the passenger-side glovebox.
- The vehicle manual and service book are also in the passenger-side glovebox.
- Fuel is **diesel only** — never petrol. AdBlue's filler is next to the diesel cap; top up at the pump, the warning light gives plenty of notice.
- Optimal tyre pressure **2.5 bar** — monitored by the onboard computer.
- **Do not leave the key in the storage tray** when you leave the vehicle.
- Dimensions **4,973 × 1,941 mm** (2,252 mm incl. mirrors) × **1,909 mm** (+ 40 cm with roof tent) — watch out for barriers, garages and car washes.
- First-aid kit, 2 hi-vis vests, warning triangle and accident report form are in the passenger-side glovebox.

2. Controls

- 1 Press the brake and press **START** to the right of the steering wheel (the key just needs to be in the cabin).
- 2 Selector to the left of the display: up for **R**, down for **D** (down again for **S**), **P** = button on the lever.
- 3 Parking brake (**P**) — pull the switch to apply, it releases on its own as you pull away with the seatbelt fastened. We recommend leaving **AUTO HOLD** on.
- 4 The sliding doors open electrically (button on the handle, on the key, on the B-pillar and by the display). Do not close them with a hand in the opening. They must be closed before driving.

3. ACC cruise control, simply

- **SET** — turns cruise control on at the current speed.
- **+ / -** — changes the set speed.
- **CNCL** — turns cruise control off.
- **RES** — resumes the last set speed.
- **MODE** — switches between cruise control / speed limiter; the following distance is set in the menu.

4. What this vehicle CANNOT do

- It is a **front-wheel-drive passenger van — not a 4×4**.
- Low ground clearance — no field or forest tracks, mud or snow off a maintained road.
- No fixed beds — tents (including a roof tent, surcharge) and camping gear are available to hire for sleeping.
- Do not pitch the tent in wind above 35 km/h; from 25 km/h take down the canopies (see the tent instructions).
- Max. **80 km/h** with the tent, closed only.

5. Equipment

- **Included:** 2× blanket, 2× pillow, stove + gas, crockery, torch.
- 3-zone air conditioning — touch strip below the display.
- Adaptive cruise control (ACC), reversing camera/sensors.
- Removable seats (no table), ISOFIX in the 2nd row, a child seat can be hired.
- Tow hitch (trailer, carrier) and roof-box preparation (surcharge).
- Puncture repair kit (sealant + 12 V compressor) instead of a spare wheel — we'll show you where at handover.
- Optional roof tent for 2 people (surcharge) — drive only with the tent closed.

6. Refuelling and AdBlue

- Diesel tank **60 l**, approximate consumption **6–9 l/100 km**, range approx. 700–800 km.
- Only top up AdBlue at the pump, into the filler next to the diesel cap.
- Tyre pressure **2.5 bar**.

7. Return and contact

- Return with a **full diesel tank**, tidy interior.
- Return the documents and both keys (main and spare), we recommend photographing the vehicle.
- Office Mon–Sat 9am–9pm: **+420 723 707 958**
- Roadside assistance: 24/7 on the same number.
