

4×4 Off-Road Card — 10 Rules

Informative translation — the Czech version prevails.

Poutník · GM Rent&Diggers s.r.o. · version 1.4 · effective from 19 September 2026 · Mercedes-Benz X 250d, Toyota Land Cruiser

- 1 Before off-road driving, lower the tyre pressure; re-inflate once back on tarmac.
- 2 Shift to 4H/H4 only on loose or slippery surfaces, never on dry tarmac.
- 3 Shift to the 4L/L4 reduction only after stopping the vehicle with the lever in N, then drive slowly.
- 4 Engage the differential lock only in L4/4L while driving slowly and straight; disengage it before returning to the road.
- 5 Ford only at walking pace, after checking the bottom and depth — max. 700 mm (Land Cruiser) / 600 mm (Mercedes X). Never stop halfway across.
- 6 Drive only on surfaced and unsurfaced public roads where access is permitted — not off the tracks, not in off-road parks, not in races.
- 7 With the tent fitted, drive only with it closed and secured, max. 110 km/h.
- 8 In winter use snow chains as required by the road signage on the road concerned.
- 9 Never tow or recover other vehicles — only recover your own with a rope or winch.
- 10 Stuck? Don't try to dig or spin your way out — call our 24/7 line **+420 723 707 958**.

Breaching the off-road rules = a contractual penalty of **CZK 10,000** plus full compensation for the resulting damage — not covered by any protection package.

The full off-road rules are set out in the Rental Rules and the rental contract. Poutník — GM Rent&Diggers s.r.o., Plovární 478/1, 301 00 Plzeň, IČO 23741392 · honza@frantisekdron.cz · +420 723 707 958 · autapoutnik.cz
